Supplies List:

Construction paper

Paint

Baby wipes for clean up

Instructions:

Step 1. Assist children with covering the bottom of one foot with washable paint. Allow the child to use the foot to make a footprint on the construction paper.

Wash their foot and then do the other foot placing the heel of the second foot over the heel of the first print to create a heart shape.

Allow to dry, and then assist children with writing the words, "Serve One Another Through Love" around the foot prints (see image).
